Item No: 47.20

**Seeking approval of Maximum registration of students for an open Elective Subject**

It has been observed that most of the students are taking one open elective from one department (Out of 110 2<sup>nd</sup> year student 100 student registered for one subject although there are subjects offered by other departments also). In this scenario it is very much difficult to allot a class physically in the current academic building as well as its very difficult for the course coordinator to assess the particular subject.
